-

Professional Experience

Django Developer

CDAC

Jan 2023 – Present

Project 1

Developed Account Creation Module

- Developed secure token-based authentication using **Django REST Framework**.
- Ensured secure handling of user sessions and protected endpoints.
- Collaborated with team for deployment and production testing.

Project 2

Employee Attendance System

- Designed **Django**-based attendance system with login and **CRUD functionality**.
- Integrated Excel and PDF report generation using **xlsxwriter** and **WeasyPrint**.
- Optimized database queries and improved system performance.

Project 3

Image & Video Categorization Tool

- Designed **Python**-based desktop app with **Tkinter** and **OpenCV** for media categorization.

- Automated file sorting and duplicate image removal.
- Enhanced user interface with real-time previews and smooth transitions.

Project 4

Client Support

- Provided technical assistance via documentation and email.
- Ensured smooth deployment and usage with regular updates.

Education

M.Sc. in Physics (Electronics and Embedded System)

Mumbai University

2020 – 2022

Certifications

- Django Development – I.T. Vedant pvt.ltd
- Python – I.T. Vedant pvt.ltd

Projects

E-commerce Platform (Django, SQLite, Django ORM, Authentication System)

- Built a user-friendly e-commerce site with authentication and secure checkout.
- Developed order tracking and customer dashboard features.
- Implemented category filtering, search, and order history view.
- Used Django templates for frontend/backend integration.
